Do you see your future pathway in Information Technology?

This program could be the course for you…

About the course

Working with our partner *Integrity Business College*, this course is a practical, hands on program and is delivered over a notional two-week period. A review of the Pilot Program is currently underway, and the COVID-19 situation will be key influencing factors in the program's delivery model for 2020. On **completion** of the program, participants may consider applying for further study at *Integrity Business College* to increase their technical skills. Course delivery will be blended to have an emphasis on skills required by industry. It will also include several industry focused exposures and contact opportunities to better prepare students for employment and connect in the industry.

Aims of the Course

This Pathways course aims to build school leavers employability skills and provide connection to businesses through work placements, industry speakers and site visits. Participants will also be introduced to organisations with possible employment opportunities.

Who should attend?

Students who are leaving school after finishing their Year 12 and are looking for employment opportunities in the IT Industry are best suited. In addition, those students applying for University/TAFE will find Pathways as something practical that will enhance their further their studies.

When will this course commence?

Expression of interest will be taken from Oct- Nov 2020**.** The course is planned to be delivered **in early December 2020.**

*Dates are still to be confirmed, as well as method of delivery, due to COVID-19.

What happens upon completion in the program?

Upon completion of the program, students will have the opportunity to commence further study with *Integrity Business College* in their available courses. Participants who successfully complete this course will have a discounted enrolment fee into the course. Available courses are listed below, along with entry requirements.

ICT30118 Certificate III in Information, Digital Media & Technology	**ICT40418 Certificate IV in Information Technology (Networking)**
Students who have completed year 12 with no prior IT attainments will go on to be enrolled in the Certificate III qualification.	Students who have completed Year 12 along with our SBAT program and successfully completed their Certificate III in IT qualification, will go on to commence further study in our Certificate IV qualifications.
